

QUARTZ

# Quartz Xtra range the perfect fit for hybrid engines

Watch this video to learn more about the Quartz Xtra range

## Quartz Xtra, the (r)evolutionary range

Total UK Lubricants, part of TotalEnergies, has developed a range of revolutionary lubricants to meet the needs of drivers' engine oil usage and consumption.

The newest Quartz Xtra range is designed for the latest generation of engines (such as hybrid, downsized) and provides Xtra fuel economy properties.

## Recyclable packaging

Quartz Ineo Xtra and Quartz 9000 Xtra subranges that are made in Europe, have introduced an innovative bottle composed of 50% recycled plastic and 100% recyclable.

## Choose the right oil

To help motor factors select the right products, Total provides all the detailed application information in an online tool, Lub Advisor. Simply go to:

[services.totalenergies.uk/lub-advisor](https://services.totalenergies.uk/lub-advisor)

## Up to 33%\* improved fuel economy

Total strives to bring drivers excellent performance and lubricants that are better for the environment. Look for the FE badge on Quartz products and you'll discover a range of engine oils to significantly lower your fuel consumption.
